

# COVID-19 VACCINE REGISTRATION PROCESS

- 1** Wait for your priority group's phase to activate and begin eligibility screening process (step2). To identify which group you are in, visit the Health Department website's **COVID-19 vaccination page**
- 2** Submit an electronic eligibility screening form at <https://forms.gle/yCpeAhM68wY1Mt2X9>. This link can also be found on our vaccination page.
- 3** After your eligibility is processed and vaccine clinic availability is coordinated, you will receive an email from CCHD with clinic registration links and instructions.
- 4** If you are eligible under Phase 1A or are over the age of 65 allow **3 - 4 weeks** for the clinic registration email to arrive. All other priority populations will be contacted with registration information once the vaccine is available for your priority group.
- 5** Complete your clinic registration and watch for a confirmation email. We recommend occasionally checking your spam or junk email folders during this process.
- 6** Read confirmation email carefully noting vaccination day instructions and clinic location.
